24 Hour STAC Report

- Report Attached

# **SITUATION SUMMARY**

## **Cal OES Activation Status**

### **State Operations Center**

**Level 1**

### **Inland Region EOC**

**Level 2**

### **Coastal Region EOC**

**Normal Operations**

### **Southern Region EOC**

**Level 2**

### **Cal OES INLAND REGION**

#### **Flood Operation Center(FOC), Department of Water Resources (DWR), Prepositioning of Resources and Personnel**

- A weather system is forecast to bring rain to California starting Wednesday, 11/21/18. Moderate rainfall is expected in northern California, lower amounts expected in central and southern California.
- The National Weather Service will use the following trigger numbers to decide Flash Flood/Debris Flow Warning issuance:
  - 0.4 inch in 15 minutes
  - 0.6 inch in 30 minutes
  - 1.0 inch in 60 minutes
- River forecasts will be issued twice per day through Wednesday, 11/21/18, then once per day Thursday, 11/22/18 through Sunday, 11/25/18. Minor rises are forecast on the main stem rivers.
- Flood Operations Branch (FOB) staff are assisting DWR's Security and Emergency Management Program to fulfill four Cal OES mission tasks for assistance with burn scar areas:
  - Flood fight materials to Chico Airport:
    - Two containers were delivered to the Chico staging area on Sunday, 11/18/18. Material from the containers was delivered to Paradise yesterday, 11/19/18.
    - An additional 64 rolls of Visqueen were delivered to the Chico staging area by Sutter Yard staff at 1530 hours on 11/19/18.
  - Staff:
    - Four flood fight specialists (two from North Region Office and two from DFM) have been identified to provide technical assistance on Visqueen placement to cover burned parcels to prevent hazardous materials from being washed into waterways. Two are on site in Paradise as of 11/20/18 and two are available for future deployment if needed.
    - Three safety engineers have been identified to evaluate field and working conditions. One has been deployed to Chico, and two are available for future deployment, if needed.
  - Flood fight materials to Butte County Fairgrounds:
    - 8,000 sandbags were requested to be staged at the Butte County Fairgrounds in Gridley to protect the temporary housing for evacuees against potential flooding.
    - Two flood fight material containers are already located at the fairgrounds with 12,000 sandbags each.
    - One staff from Sutter Maintenance Yard and a flood fight specialist will be at the Butte County Fairgrounds in Gridley around 1830 hours on 11/20/18 to provide access and direction on sandbag placement.

OF EMERGENCY SERVICES

# **SITUATION SUMMARY**

## **Flood Operation Center(FOC), Department of Water Resources (DWR), Prepositioning of Resources and Personnel (Continued)**

- Flood fight materials to Los Alamitos:
  - Cal OES requested two flood fight material containers to be pre-deployed near the Cal OES Regional Operations Center in Los Alamitos.
  - Four containers are already staged at this location. Staff is available to provide access if needed.
- FOB staff will continue to monitor and assist through the holiday weekend as needed.
- Updates will be provided if necessary.
- Precipitation can be monitored at the following website: [http://cdec.water.ca.gov/california\\_burn\\_areas.html](http://cdec.water.ca.gov/california_burn_areas.html).
- See Fire Activity Slides

## **Cal OES COASTAL REGION**

### **Poor Air Quality due to Camp Fire**

- Napa County has activated their EOC at a Level II to support the Medical Health Branch. Napa County OES is in Unified Command with the Public Health Officer.
  - Operational Period: 0800-1700 hours, Duty Officer in the evenings, weekends and holidays.
  - Activation will continue until air quality improves
  - They are monitoring hospitals: No unusual surge
  - Public messaging has been updated
  - Public Health is distributing masks to areas
- San Mateo County has activated their Emergency Beds due to poor air quality for the homeless.
- Santa Clara County has Clean Air Centers open during the day in the cities of Gilroy, Los Altos, Milpitas, Morgan Hill, Mountain View, Palo Alto, Santa Clara and San Jose.
  - A list of Clean Air Centers and shelters is available on the Office of Supportive Housing website.
  - In addition, the Santa Clara County Libraries are available as Clean Air Centers during regular business hours.
- City of Oakland has opened more shelter beds for the homeless.

# WEATHER OF CONCERN

## **Northern California**

- Widespread smoke, reduced visibilities and dry conditions will continue across much of the state through Tuesday night.
- Flash Flood Watches in effect Wednesday afternoon through Friday morning for several burn scars across California including: Camp, Carr, Delta, Hirz, and the Mendocino Complex Fire burn scar areas
  - Those traveling in or along the areas along Interstate 5 and Hwy. 299 in the western portion of Shasta County, and along portions of Hwy. 70 and the Skyway in Butte County should be alert for possible road problems due to flooding, rock, and debris Flows.
- [Winter Storm Warning Wednesday afternoon through Friday morning for the Sierra.](#)
- [Flash Flood Watch Wednesday afternoon through Thursday morning for the Ferguson burn scar area in the southern Sierra.](#)
- [Flash Flood Watch Thursday morning through Friday afternoon for the Natchez and Eclipse burn scar areas across far northern California.](#)
- Wednesday
  - 0.50-1.00 inches of rain over the northern valleys
  - 1.00-2.00 inches of rain over the northern foothills
  - Heaviest rainfall rates late Wednesday afternoon and Wednesday night
- Thursday/Friday
  - 1.00-2.00 inches of rain over the northern valleys
  - 2.00-4.00 inches of rain over the northern foothills
  - Heaviest rainfall rates late Thursday night through early Friday afternoon
- Winter Storm Watch in effect Wednesday afternoon through Friday morning for the Sierra across central and northern California. Generally 8-16 inches of snow is expected above 6000 feet, with up to 2 feet over the higher peaks.
- Strong winds Thursday night and Friday across northern California
  - Gusts 40-45 mph across the Sacramento valley
  - Gusts 50-70 mph along the eastern Sierra front
  - Gusts 70-100 mph across the Sierra ridges

## **Southern California**

- Minor debris flow concern for the Woolsey and Hill Fire burn scar areas Wednesday afternoon and Wednesday night
  - 0.30-0.60 inches of rain for the Woolsey and Hill burn areas with localized amounts up to 1.00 possible
  - The peak of the highest rainfall rates should occur between 2000 hours Wednesday evening through 0400 hours Thursday morning
- Rain is largely expected to end by Saturday morning across most of the state with the exception of a few scattered showers across extreme northern CA (north of the fires)
- Possible weak Santa Ana wind event starting Saturday night through Monday across Southern California creating elevated fire weather concerns.

# WEATHER SYNOPSIS BY REGION

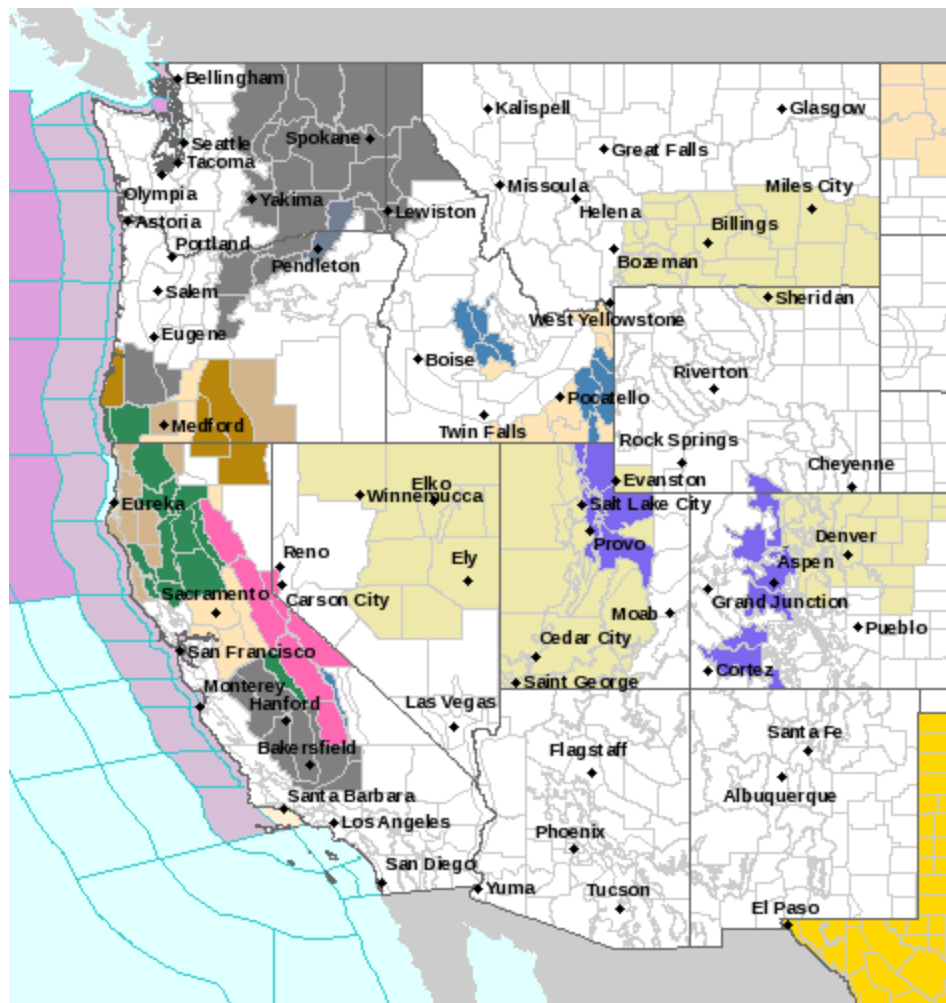

## **NORTHERN CALIFORNIA**

- Gusty Pre-Frontal S-SW Winds Tonight-Wednesday with Marginally Low Relative Humidity (RH) Shasta Valley/Weed area and East of the Cascade-Sierra Crest will Elevate Significant Fire Potential Locally for Several Hours
- Heavy precipitation at times in fire scar areas could create debris flows
- RH on mid and upper slopes still 10-25% with locally gusty NE winds this morning, ending around noon.
- Increasing S-SW winds, onshore flow, and higher RH this afternoon.
- S-SW gusts 35-45 mph this evening through Wednesday Shasta Valley/Weed area and east of the Cascade-Sierra crest. Significant Fire Potential will be elevated locally until rain develops - in the Weed area mid to late Wednesday morning and Shasta Valley/E of the crest early afternoon on Wednesday.
- Locally heavy rain or snow at higher elevations (mostly 5,500 feet +) is expected Wednesday and Wednesday evening and again late Thursday and Friday, ending early Saturday. Debris flow conditions expected in this year's fire scar areas.
- Dry with N-NE/Offshore winds Saturday through Monday. Some showers possible in the north Tuesday. Another round of heavier area-wide precipitation beginning Wednesday.

## **SOUTHERN CALIFORNIA**

- A weak ridge of high pressure will remain over the West Coast today. A couple of Pacific troughs from the Gulf of Alaska will move into the West Coast Wednesday through Friday. The first trough will move inland Wednesday and Thursday and it will be stronger and dig further south than the second trough which will move inland Friday. A weak ridge of high pressure will build into California from the Pacific Ocean Saturday through early next week.
- There will be little change in temperature and humidity today.
- Maximum temperatures will remain near normal, with 50s to low 60s across the mountains and mid 60s to mid 70s in the valleys.
- Minimum humidity will be mainly in the teens away from the coastal areas.
- Winds will be light today.
- Temperatures will become 5 to 10 degrees below normal Wednesday through Friday.
- Showers will develop over the northern parts of Central California starting Wednesday morning and then spread south. Showers will not make it into Southern California until Wednesday night and Thursday morning. Showers will end across the region by noon Thursday.
- Most locations over Central California will receive between a quarter inch and an inch of rainfall and most locations over Southern California will receive between a tenth of an inch and a half inch of rainfall Wednesday and Thursday.
- Another round of showers will occur from a Monterey/Fresno County line northward Friday morning through Friday night with up to an additional half inch of rainfall.
- The snow level will be between 6,000 and 7,000 feet Wednesday through Friday.
- There will be south winds of 20 to 30 mph with gusts to 50 mph across the mountain ridges and desert passes Wednesday and then these winds will become westerly with the same speeds Thursday and Friday.
- A warming and drying trend will occur Saturday through early next week.
